THURSDAY, SEPTEMBER 9, 1897.

OUR DECLARATION.

In the course of human events it becomes necessary for us to announce to the public that we have leased a half interest in THE SUN-DEMOCRAT, and we shall hereafter assist in furnishing brain food for its many readers.

In this connection we will state that we have had experience as a pencil shaver; that we are an adept with the scissors, and as a manufacturer of red hot news, we are without a peer, but the news is of such a sensational character that we have often had to seek military protection.

Our style of writing is eccentric, droll and sensational, streaked with originality, or easily distinguished from the writings of the scriptures, owing to our habitual carelessness in handling the truth.

As to our character as a citizen, we can truthfully say, that we never loaded around to catch the yellow fever, cholera, and kindred afflictions; that we never robbed a bank, held up a railroad train, served a term in prison, or worked on the chain gang, or elsewhere. That we always paid our just debts (when we had to,) and further the deponent saith not.

After these introductory remarks we will state that we shall not only assist in keeping THE SUN-DEMOCRAT up to its present high standard, but we shall use our best efforts in making it the neatest, brightest, newsiest journal in Arizona.

A live, progressive little city like Flagstaff, deserves a wide awake up-to-date newspaper; and with the liberal patronage of her enterprising citizens extended to us, we feel confident that THE SUN-DEMOCRAT will meet the demands of the most exacting as a weekly.

The political policy of the paper will remain undisturbed for the present, but this does not apply to our individual politics, as they are unincumbered, and not included in the capital stock; consequently we will entertain bids from a dollar up, and will give a clear title to all purchasers.

In conclusion, and in confidence, we will state in a round-about way, that we are not here altogether for our health; that we will take money, bonds, bills, notes, cast off clothing, or any thing else animate or inanimate in exchange for our newspaper efforts. That we will accept in a professional way, and on easy terms, all invitations, privileges, donations, tips, bonuses and presents; in short, everything goes with us.

Yours until further notice,
R. H. JONES.

Having sold my interest in THE SUN-DEMOCRAT, I now step down and out of my newspaper labors in this field. My business relations with J. E. Jones my former partner, have been harmonious and satisfactory in every way, and it is with reluctance that I am compelled, owing to continued ill-health, to relinquish my interests in THE SUN-DEMOCRAT. Bespeaking renewed success for the paper under its new management, I bid the readers adieu.
O. F. JACKSON.

COCONINO county is a little over six years old.

High taxes will prevail in Arizona as long as she wears the territorial robe.

COCONINO county has an abundance of wood for fuel, and very rich undeveloped coal fields.

THE prospecting so far develops the fact that this county contains copper mines unsurpassed for richness in the world.

THE citizens of Ohio will remain at home until after the election. Klon-dyke has no attractions for them when Hanna is bossing an election.

COCONINO county not only has more feet of lumber than any county in the Territory, but it has more than any county west of the Mississippi river.

GOVERNOR McFORD in his speech at Prescott last Monday uttered the truth in a nut shell when he said: "I believe today our paramount need is statehood; all others are secondary and will come with statehood."

THE time for filing notices of intention to build new railroads with the secretary of the territory expires the 16th of this month. Railroad builders had better file immediately if they desire the benefit of the fifteen years exemption from taxation as provided for by the Nineteenth Legislature.

A FAILURE of the wheat crop in some of the foreign countries enabled those who had the wheat cornered in this country to realize \$1 per bushel for the same, and that fact is offered as evidence of prosperity under the present administration. That kind of prosperity is good for the capitalists and speculators but it don't help the farmer who produces the wheat, and is forced to sell the same at half the above prices.

PATRONIZE HOME.

No business man or mechanic ever succeeded in his business or trade without receiving home patronage. Flagstaff can never be a city, or a town of any note unless the citizens patronize the town merchants, mechanics and laborers.

Every dollar sent away to purchase an article that could be obtained here at a reasonable price injures the town financially, and it is pulling down business instead of building up.

The business man who employs foreign labor because he can get it a little cheaper than home labor, can't expect the home laborers patronage, and the laboring man can't expect employment from the business man or merchant when he sends off to other towns to buy almost every article he needs because he can buy it a few cents cheaper than at home.

Every man that is doing a legitimate business has a right to expect encouragement and home patronage. No business or enterprise can be carried on with any degree of success without home patronage.

Our motto is don't send away from Flagstaff for any article or thing in any line, that you can purchase here.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Add., F. J. CHENEY & Co., Toledo, O.

Sold by druggists 75c.
Hall's Family Pills are the best.

FROM FREDONIA.

Park Harper, a correspondent to the SUN-DEMOCRAT, among other things contributes the following concerning the above town and vicinity: Fredonia is situated in the north-west corner of Coconino county, on Kanab creek, which is the line between Coconino and Mohave counties. It contains about twenty families.

The male inhabitants of this beautiful little town are principally engaged in farming and stock raising, but the scarcity of water for irrigating purposes limits the farming interests.

The country surrounding Fredonia is as good for stock raising as any section in the Territory. About five or six thousand head of cattle have been

Liver Ills

Like biliousness, dyspepsia, headache, constipation, sour stomach, indigestion are promptly cured by Hood's Pills. They do their work

Hood's Pills

easily and thoroughly.
Best after dinner pills.
25 cents. All druggists.
Prepared by C. I. Hood & Co., Lowell, Mass.
The only pill to take with Hood's Sarsaparil.

sold off of the ranges in this section this summer.

The prices paid were as follows: Yearlings \$13; two years old \$18; three and four years old \$22.50, and \$20 for a cow and calf.

A great deal of rain has fallen lately on the Buckskin mountains and the range is very fine, and cattle are in excellent condition.

It is claimed that some very fine copper mines have been discovered on the mountain lately, and the mining experts who have visited them make very favorable reports.

Plenty of game abound in the Buckskin mountains, such as antelope, bear, coyotes, deer, gray wolf &c. The Indians are slaughtering the deer on these mountains for their hides, and some steps should be taken to put a stop to it.
